I am writing this letter in regards to Lynn Munoz. Lynn has taught for Glendora High School for the past two years. She has taught Biology, Natural Science and Health. Lynn did a wonderful job of building relationships with her students. She always attended IEP's, IST's and 504 plan meetings. She gave valuable input on students and how they could succeed in her classroom. Her students had a great amount of respect for her and were constantly seeking her help during breaks, before and after school.

Dean of Students

**Rod Tilton**

Lynn worked hard at learning curriculum and changing instructional strategies to help all learners. She was constantly researching content and how to connect the content to the real world. She spent hours trying to perfect her craft. This year in particular because her students had trouble with organizational skills she started an Interactive Notebook so students can track the work they are doing.

ASB Director

**Rene Gonzalez**

Lynn was a valuable member of the Science department. She always had something to discuss at the meetings. She was good at working with other teachers with in the department. She has a lot of energy and loves the teaching profession. Please contact me at 626-963-5731 ext. 232, if you would like to hear more of the positive attributes Lynn brings to the education field.

Sincerely,

Paul Lopez
