**Eric Bondurant**  
Assistant Principal

To Whom It May Concern:

I am pleased to write a letter of recommendation for Lynn Munoz. I have worked with Lynn the past two years at Glendora High School. I served as her evaluator in my role as assistant principal.

Lynn brings incredible energy and enthusiasm to the classroom each day. It is obvious she has a passion for teaching and her subject matter. Lynn has embraced the NGSS and has worked hard to implement these concepts into her instruction. Lynn uses many hands-on activities and labs which keep her students engaged and motivated. It is obvious she is dedicated to student success. Lynn is always one of the first teachers on campus in the morning. She opens her classroom to students who need help. Lynn finds creative ways to support and help her students.

As the creator of the master schedule, I appreciated Lynn's ability to teach a variety of different subjects and her willingness to be a team player. Lynn has taught, Natural Science, Biology, and Health during her tenure at Glendora High School. Lynn maintained the same dedication and professionalism in whichever class she was assigned. Her flexibility and willingness to do whatever was beneficial for the students illustrated her student centered philosophy.

Lynn is a true professional. She is an active participant in professional development, staff meetings, and campus activities. Lynn was a positive force for change in the Science department. She collaborated with peers to strengthen the curriculum and create department wide performance tasks.

Lynn Munoz is an enthusiastic educator who works hard to ensure student success.

Lee Spengler  
Assistant Principal
